WISDOM TALK

By The "Office Boy"

All after dinner speakers would have told the story of the Mississippi River. It was a proud steamer, a proud captain, it had a name, an enormous, big whistle.

It could go at most miles an hour upstream when it managed to work that speed the best and the best of the river.

Nearly all the steam engines was required to blow the whistle, so that, as the whistle, she had to stop.

This boat went up the Mississippi River very slowly, would travel a mile an hour, then blow the whistle, then blow the whistle, then blow the whistle.

There are many men today—that may consider themselves full brothers in the Mississippi River steamers.

We could run a full-day advertisement in half and tell you we would give you a dollar for every silver dollar you would give us. Our ready-made clothing is ready-made. Our hats, shirts, neckties, handkerchiefs, gloves, socks, shoes, are made by the best of the most sanitary factories in America. We have the lowest prices for our goods. Just the plain, honest way of doing it. It's the Silverware way. Right way. It's the right way. It's the right way. It's the right way.

PROVED CIRCULATION.

The Times has never shirked the duty, a newspaper owes its patrons of exhibiting and printing true statements of bona fide circulation. Each month for nearly twenty years The Times has regularly published a sworn detailed statement showing the number of copies printed and circulated each morning of the preceding month. Sometimes the gains have been small and sometimes large, but almost invariably some gain, and no matter what the figures have been, the publishers of The Times have never failed in discharging what they consider an obligation to their advertising patrons.

The figures always have been for the especial benefit of all who buy advertising space. The steady gains in the average each year since 1900 are shown in the following table:

Year.	Copies.	Year.	Copies.
1900	27,792	1904	37,702
1901	28,777	1905	43,150
1902	31,250	1906	50,488
1903	36,657	1907	52,525
1908	53,500		

1909 gives promise of substantial circulation increase and consequent better value to the advertiser—both mercantile and classified.

For January (including the 125,000 Midwinter Edition) the average circulation for every day was 57,004 copies, a gain of 1988 copies over the corresponding month of 1908.

For February the average for every day of the month was 55,468 copies, an average daily gain over the corresponding month of 1908 of 1380 copies.

All these circulation figures and statements are provable, and The Times stands ever ready to guarantee them.

STANTON TO QUIT.

(Continued From First Page.)

bered and he went home with a silver fruit set, the praises of Percy V. Hammon ringing in his ears. A. M. Drew seconded the eulogy of Johnson, Juilliard and Beardslee both wept when time came for giving the latter a silver water pitcher and a gold watch. That prince of fellows, J. O. Rech, made a spiel over Cio Lloyd's diamond stud, which was the Assembly mark of appreciation for the services of his chief clerk. The sergeant-at-arms gave a slip of paper good for a dining-room set. John J. McManus handed a gold purse from the members to Chaplain S. N. Marsh, and, but not least, Grove Johnson expressed the felicitations of the Assembly to the parents of little Marjorie Frances Hammon, who came to brighten the dull earth with her baby smiles no longer ago than last Sunday. A case of silver dishes went with the recommendations to show that the joy-wishing was in earnest.

And then, as all things must, the thirty-ninth session of the Legislature of the State of California came to an end. Peace to its ashes!

The exodus from the capital of the members of the Legislature and their army of clerks and attendants was completed this afternoon, when two trainloads of them left for San Francisco and Salinas, many to attend in the latter city the funeral of Assemblyman John J. W. Marsh.

Both branches went into session after 10 o'clock this morning for the last time before adjournment sine die. With the passage of the direct primary bill, the last important measure had been disposed of finally, and the leaders agreed upon noon today as the time for ending the session.

CHARCOAL LOZENGES

A Natural Breath Perfume

Charcoal Assists in Gaining and Retaining a Sweet Breath.

Breath perfumes should never be resorted to. They seldom conceal the odor and never remove the cause, and are very suggestive.

Stuart's Charcoal Lozenges sweeten the breath by removing the cause—a disordered condition of the stomach, and by this means imparts to the breath the natural, healthy odor, void of all unnatural or suggestive condition. Charcoal fills a four-fold mission. First, it purifies the breath by restoring to it the natural odor nature intended it to have. Second, charcoal is an absorbent, absorbing 100 per cent. per volume of gas, by this means relieving flatulence and gases of the stomach and bowels. Third, charcoal aids digestion and by this means regulates the action of the bowels, relieving flux, diarrhoea, piles, constipation, etc. Fourth, charcoal oxidizes the blood, thus preventing pimples and other eruptions that arise from indigestion and impurities of the blood.

Stuart's Charcoal Lozenges are a household necessity and should be in every home, containing only young willow wood charcoal and honey. They are perfectly harmless and any quantity may be taken without ill effects. Old and young alike can take Stuart's Charcoal Lozenges with the same beneficial results.

The next time that you have sour stomach, indigestion, bad breath, heart burn, gastritis, bad taste in the mouth, belching or belching up of food, just step in to the Stuart's Charcoal Lozenges and get a box of Stuart's Charcoal Lozenges and try them; the result will be gratifying and almost instantaneous, the stomach will soon feel better and the disagreeable odor disappear in a very short time.

If you prize a sweet breath and healthy stomach, you should occasionally use Stuart's Charcoal Lozenges. A lozenge now and then will suffice to sweeten the breath and keep the stomach in a healthy condition; try them; for sale everywhere, or a sample will be mailed free upon request. Address The F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

Mr. Lawler will leave today for Washington, presumably to confer with the President and the Secretary of the Interior in regard to his appointment as Assistant Attorney General.

"TOM" SAVAGE ON THE GRILL.

DEPOSED KING OF TENDERLOIN BEFORE GRAND JURY.

Well informed on Profits of nefarious Business—Durst Again Refuses to Answer Questions and Returned to Jail—Sam Schenck and Walter Parker on the Stand.

Reminiscences of a king of the Tenderloin were related to the special grand jury yesterday by "Tom" Savage, who was on the throne in the red light district before the accession of Nick Oswald, now a fugitive from justice. It is thought that Savage was able to enlighten the jury but little on the conditions that prevailed during the last few months of the Harper administration, for he went down and out when Oswald rose to power.

But Savage was able to tell something of the situation that existed when he was in his glory, and it probably interested some of the grand jurors to learn that his profits in the conduct of certain resorts were from \$3000 to \$3200 a month.

For a brief period, it is said, Oswald had net returns far in excess of these figures, but when he heard that rumor he was quick to deny it, and for several days he has stood in readiness to appear. He was on hand promptly when his name was called yesterday. He spent the entire morning in the jury room, waiting for the call.

During the morning, Joseph Durand, the French business agent of Oswald, was taken over from the County Jail to the grand jury room, where he was given another opportunity to answer the questions put to him on Friday.

On several occasions, however, he refused to answer which at that time caused him to be sent to prison for contempt. Again he was mum on the important matter of his disposition of certain money, so he was sent back to his cell.

Durand is a wily customer and it may require a long siege before he will bring him to the point of enlightening the grand jury as to the matters upon which they are inquiring.

He always insists that he be examined through an interpreter, asserting that his knowledge of English is so slight as to make it hard for him to understand the questions asked.

On several occasions, however, he has given himself away by starting to answer questions before they could be conveyed to him through the interpreter.

Those who know Durand state that he is thoroughly conversant with the English language (he has been in this country seven or eight years) and that his reluctance to answer is simply to aid him in parrying the questions that might be asked.

The little Frenchman is said to have had an unsavory record in South Africa and in Paris, and one of his principal fears, it is asserted, is that searching inquiries will be made into his past, though it is believed that the inquiries will go no farther back than the last year or two in the Tenderloin.

Sam Schenck, one of Harper's Police Commissioners, followed Tom Savage in the grand jury room. He was on the stand for about an hour. After him came Walter Parker, for another hour.

Two brothers of Nick Oswald were called to the office of the District Attorney during the day, presumably to tell the official what they knew of the whereabouts of the fugitive. They asserted that they were in ignorance on that point.

No further information has been received as to the movements of Oswald, beyond the statement that he is far below the line in Lower California, and that he was there a few days ago.

There is a growing belief that Oswald and Yetter are making their way to the State of Sonora, with the intention of embarking at Guaymas for Central or South America, havens for American fugitives from justice.

FIVE YEARS FOR BOOTLEGGING.

Illinois Liquor Law Violator Gets Record Sentence—Fine of \$7500 Also (BY DIRECT IMPROVED TO THE TIMES.)

CHARLESTON (Ill.) March 24.—(Exclusive Dispatch.) A fine of \$7500 and five years in the County Jail was given William J. Knight of Missouri today for bootlegging. This, which is perhaps the heaviest sentence ever pronounced on a violator of the liquor laws of the State, was given by Judge J. W. B. Craig of the Coles county court.

Knight, with a half-dozen others who have persistently defied the local authorities, was indicted by a special grand jury on the charge of bootlegging in anti-saloon territory, keeping a disorderly house and maintaining a common nuisance. There were sixty-three counts against him and a petty jury pronounced him guilty on all.

Judge Craig gave him the high limit of the penalty for the offense.

Knight went to jail. His attorneys are trying to secure his release by habeas corpus proceedings. Application having been made to Judge Solon Philbrick of Champaign.

MOJAVE GAMBLERS HOLD "WAKE" WITH CREPE ON THEIR TABLES.

Robbers of Aqueduct Laborers Get Word to Shut Down and Will Be Good Today—Wild and Tough.

THE whole horde of tough gamblers, who have been robbing Los Angeles aqueduct laborers of their hard-earned money, "received notice" yesterday that it's moving day on the desert.
Every "sure-thing" game in Mojave, where the gamblers have made their headquarters, and which is almost their last stronghold in the United States, "got the word" yesterday. It has been the widest-open town in America.
There was a wild finish last night with an ironical "wake" and crepe hung on all the tables—roulette, faro, monte, craps, black-jack and "stud."
This morning Sheriff Kelly of Kern county is to pay a rather laughable visit of "inspection," and he is to find the town virtuously and piously "closed," with "hearts" and "old paid" the maddest possible dissipation. The gamblers profess to believe it is only a grand stand play on the part of Sheriff Kelly, however.

Where Many Aqueduct Laborers' Money Went.
Gambling scenes sketched night before last in Mojave, widest-open town in America, which will be suddenly good today. The photograph shows the main street, on which nearly every other building is a saloon and joint where robbing games are carried on.

stretch of desert—purple buttes in the hazy distance—miles of dull sweep plains, pock-marked with sagebrush—rough desert hills gashed where the miners have bored into their sides.
Picture a long row of one-story frontier stores, old tumble-down adobe leaning on the garish new pine board "stores"—a typical Wild West town with a saloon in nearly every building, a tough dance hall at the end of the line—every known sure-thing game running wild and free, with no limit but the roof and, in the middle of the line, like a diamond in a setting, the office of the complacent justice of the peace and constable.
JUSTICE, MORALS, POKER.
The Town Marshal, Constable and Deputy Sheriff of Mojave is a man named John Reid. The name of the justice of the peace is Coleman. The office from which they dispense justice and morals is situated in the rear end of a poolroom. It is partitioned off from the rest of the room. On the other side of the partition is an active, vigorous young poker table in working condition. Slot machines all around—crap table in a corner.
Yesterday the two officials were summoned to Bakersfield to consult with Kelly, who doubtless informed them, to their horror and surprise, that gambling is going on in their town.
In the event, however, that Kelly did not tell them all, these few additional facts would be of little use to them.

OF OLD "WILD WEST."
It is almost beyond belief that just across the mountains from Los Angeles there could be just such a town as figures in the old Wild West stories. Wolfville didn't "have anything" on Mojave.
Picture to yourself a long gray

A row of picturesque characters of Mojave.

WILD TALE IS TOLD BY BOYS.

Declare They Were Kidnaped in Big Auto.

City Is Searched in Vain by Frantic Parents.

Missing Lads Are Found by Venice Doctor.

Relating a wild tale of abduction and a mad automobile ride through the Crescent Bay beach cities, five young Los Angeles schoolboys disappeared mysteriously yesterday afternoon, and for whom scores of relatives and friends searched throughout the city last night, were located about midnight in Venice.
The lads were kept at the beach city all night, while Venice police searched until morning for two strangers and a big automobile. The lads claim they were taken away from the city under false representations that they were to be taken only for a short spin about the city streets.
Despite stern cross-questioning by the Venice police, the boys could not be shaken from their statements that they asked repeatedly to be allowed to get out of the machine when they saw they were being driven out of the city, but were repeatedly refused. Only when the machine broke down between Santa Monica and North Point and the two men got out of the car, did the boys have a chance to make their escape.
MAKE THEIR ESCAPE.
When the car stopped and could not be started one of the men, the boys say, crawled under the car while another started for a nearby house to procure a wrench. It was then the lads tumbled from the tonneau and ran down the beach. The two men did not follow.
The lads then walked down the beach sands to Venice, and were gathered into custody, and turned over to the Venice police. The boys were tired, put, and were making preparations for camping for the night. When taken to the Venice Police Station they expressed gratification for the shelter given them.
The lads are Glen Anderson, 10 years old, of No. 1343 East Seventeenth street; William Bright, 9 years, of No. 1387 East Seventeenth street; Percy Lord, 11 years, of No. 1913 Central avenue; Sanders Smith, 11 years, of No. 1448 East Washington street; and Harold Walker, 10 years, a ward of the Children's Home Society.
The boys all attend and are classmates of the East Twentieth-street school. Yesterday they attended their studies as usual, leaving the school building about 3 o'clock in the afternoon. While near the school they claim an automobile drove up, containing two men in the front seat, who asked the boys if they cared for a spin about the city.
START FOR RIDE.
Accepting eagerly, the boys climbed into the tonneau. Quickly the driver headed for the southwestern part of town, and then out onto Washington road toward the beach. When Santa Monica was reached the lads say they begged that they be let out that they might return to the city. The driver only turned on more speed and headed for North Point. Then the accident occurred which allowed the lads to make their escape. It was then growing dark, but they set out bravely toward the beach, and only darkness compelled them to prepare to camp out in the open for the night.
Glen Anderson, who is the son of James C. Anderson of the real estate firm of Larsen & Anderson, suffered considerably from the exposure, being barefooted, and clad only in scanty clothing.
When the boys failed to return to their homes from school last night, their parents became frightened, and an hours passed a general alarm was sounded, and a systematic search begun in which scores of relatives and neighbors joined in the hunt.
Alighting certain districts to appointed squads, the entire southeastern portion of the town was scoured. Searches were even taken to Moorpark, where one of the missing boys had relatives, and where it was believed they might have gone. When word came that the boys had been found many of the searching parties were still in the field, while the parents of the lads were almost distracted with anxiety. The boys will be returned to the city this morning.

GREAT SPREAD TO BE GIVEN.

Banquet in Appreciation of Work of Los Angeles Delegation Arranged for Saturday Night Next Week.
With Speaker Stanton as Chief Guest of Honor.
In appreciation of the excellent work of the Los Angeles delegation to the State Legislature, prominent Republicans of this city will tender the Senators and Assemblymen a banquet Saturday evening, April 3, at the Hotel Biltmore.
The attendance will be limited to 1000, and more than 600 tickets have already been spoken for. It is proposed to make the affair one of the most impressive of any of its kind held here in years.
A meeting held last night in the offices of Attorney Joseph F. Seymour, Jr., was attended by many representatives of the Los Angeles delegation. The plans were discussed in detail. Attorney Seymour was elected chairman of the Executive Committee, with the following named members to aid him: D. W. Plancher, in charge of the program; Robert Hansen, invitations; S. H. Hillier, refreshments; Ervin Dingle, dinner; Richard Pulaway, decorations; and Robert Hayhurst, program.
The reception and banquet will be under the auspices of the Seventy-first Assembly District Republican Club. It will be held at Levy's.
Hon. F. A. Stanton, speaker of the Assembly, will be the chief guest of honor. It is probable that the Governor will also be in Los Angeles on that date, and he will be extended a special invitation to be present.
The program is to be unique, and excellent music will be furnished. The banquet hall will be beautifully decorated with flags, bunting and flowers, the latter to be donated from the public parks.
At the meeting last night the following named men were chosen for the Program and Invitation Committees: Arthur Letts, who will be the toastmaster at the banquet; Lee C. Gates, Dr. E. W. Edemann, Dr. W. Morrison, Robert Hayhurst, F. J. Zeehandelaar, Herbert Burdette, George A. Smith, Councilman Lyon and Robert Hazen.

NOW FOR A CAMPAIGN.

Consolidation Committee of Fifteen Appointed, and Meeting to Be Held in a Few Days.
The Los Angeles Consolidation Committee was appointed yesterday by the Nominating Committee. Its members are: Mayor Stephens, chairman; Stoddard Jess, Homer Hamlin, F. W. Braden, J. A. Anderson, Leslie R. Hewitt, Frank Simpson, Joseph Scott, M. H. Newmark, J. M. Schneider, A. P. Fleming, M. P. Snyder, H. Jevne, O. E. Parish and F. Hart.
This committee of fifteen will represent the city in its campaign for the consolidation of San Pedro and Wilmington with Los Angeles. It will meet within a few days to discuss the best method of starting the movement. It was stated that the Nominating Committee which represented the civic bodies, the City Council and the Supervisors, had hard work in selecting the fifteen members of the Consolidation Committee. It had a long list of available names and that meetings were necessary in order to make a final selection. Capt. A. A. Pries will probably act in an advisory capacity to the committee.

NOW FOR A CAMPAIGN.

Consolidation Committee of Fifteen Appointed, and Meeting to Be Held in a Few Days.
The Los Angeles Consolidation Committee was appointed yesterday by the Nominating Committee. Its members are: Mayor Stephens, chairman; Stoddard Jess, Homer Hamlin, F. W. Braden, J. A. Anderson, Leslie R. Hewitt, Frank Simpson, Joseph Scott, M. H. Newmark, J. M. Schneider, A. P. Fleming, M. P. Snyder, H. Jevne, O. E. Parish and F. Hart.
This committee of fifteen will represent the city in its campaign for the consolidation of San Pedro and Wilmington with Los Angeles. It will meet within a few days to discuss the best method of starting the movement. It was stated that the Nominating Committee which represented the civic bodies, the City Council and the Supervisors, had hard work in selecting the fifteen members of the Consolidation Committee. It had a long list of available names and that meetings were necessary in order to make a final selection. Capt. A. A. Pries will probably act in an advisory capacity to the committee.

RE-ELECTS OFFICERS.

Supreme Lodge, Fraternal Brotherhood, Keeps Men Who Have Brought Great Success to Order.
The Supreme Lodge of the Fraternal Brotherhood held two secret sessions yesterday, and last night the supreme officers attended meetings of subordinate lodges at several places in the city.
The feature of yesterday's business of the Supreme Lodge was the re-election of all the principal officers for another term of four years. The great prosperity that has attended the order under the present regime has been so gratifying to the membership that there was simply no thought of making a change, but the anxiety of others to get into the cabinet led to warm contests for some of the subordinate places, and the election occupied almost the entire afternoon.
The officers re-elected are: James A. Foshy, President; E. D. List, Past President; Emma E. Neldie, Vice-President; H. V. Davis, Secretary; William Mead, Treasurer; C. W. Pierce, Medical Director; C. W. Councilor; W. A. Vandergift and Margaret E. Keller, Trustees.
Today the programme will be the same as yesterday, two sessions of the Supreme Lodge being held, and visitation of subordinate lodges tonight.

VIOLATES PROBATION.
Daniel Higgins of No. 115 South Fremont avenue, was arrested last night by Patrolman Jones for chasing his wife about their home with a revolver and threatening to kill her. Higgins is out on probation for a ninety-day sentence for wife beating. He went to his home last night in an intoxicated condition and when his wife remonstrated with him, secured a revolver and chased her from room to room, finally reaching a doorway. Mrs. Higgins ran to a neighbor, whom she sent to the Police Station, then returned and held her husband in the house until the patrolman arrived.

Inexpensive French Lingerie

Every woman confesses to a fondness for real French hand-made lingerie; not every woman can gratify her desires to such an extent as she would like, because of their usually prohibitive prices.

We have recently received a large quantity of some of the very handsomest pieces, to sell at prices hitherto unknown for such fine qualities:

Very dainty designs in hand embroidered chemises, \$1.00 and higher.

* And the famous Madeira embroidery—exactly similar to that found on the finest hand-made handkerchiefs—in gowns, skirts, chemises and drawers, \$2.50 and higher. In this line only may be found the so-called reinforced scallop—a scallop edge that will not split down.

Many of these garments are trimmed, in addition to the exquisitely fine hand-work; with real Cluny laces; ribbon run.

We invite your inspection of this informal display of apring lines; some of which are shown in a Broadway window; many more on tables and counters at the Muslimwear Section.

New Kimono Handkerchiefs are here; so many people have been asking for them.

EVENTS IN LOCAL SOCIETY.

THE news of the wedding of Miss Winifred Bleeker, daughter of Mr. and Mrs. Henry Bleeker, of this city, to Hugo Eckardt, which is announced today, will cause many a young bachelor to wish he had never been born. The wedding was solemnized yesterday afternoon at 1 o'clock, in St. John's Episcopal Church. The pastor, Dr. Lewis G. Morris, officiated.

The bride was given away by her brother-in-law, F. W. Jackson, of San Diego, and the only other witnesses were Miss Theresa Stuthard, who assisted as maid, Otto Neher, who stood with the bridegroom as best man, and the bride's mother and sister, Miss Bleeker, who wore a tailored suit of white with a large black hat, and carried an arm bouquet of American Beauty roses. Following the ceremony dinner was served at Hotel Alexandria. Immediately following Mr. and Mrs. Eckardt left for a brief trip North, at the conclusion of which they will reside at the bride's attractive old home, at the corner of Twenty-fifth street and Seventh avenue. Mrs. Eckardt is a charming and attractive favorite. Mr. Eckardt is well known here. He is associated with Carl Leonard in business.

To Leave for Trip.

The home was converted into a pretty bower with flowers and greenery. In the drawing-room, where the guests were received, La France roses and asparagus ferns were combined with bows of pale pink tulle. The dining-room was gay with quantities of jonquills and over the chandelier ropes of ferns hung gracefully. The dining-table was especially attractive. The table was laden with an elaborate cloth, and the centerpiece was a great glass bowl of pale pink poppies, and ferns and tulle were banded about the room. The hostess was assisted by Mrs. Charles Modini-Wood, Mrs. Harmon Ryus, Mrs. Powell, Mrs. Johnson and Mrs. Schumacher.

FLORENCE MILL RUNNING WELL.

LOCAL BROKER MAINTAINS IT IS SUCCESSFUL.

Says It Is Not Built Over a Stope and Is Dropping Its Forty Stamps Daily—His Statement Is Opposed to Others That Have Come Down from Goldfield.

Goldfield was never in better condition, and is ready for the greatest production in its history, according to C. H. Eubank, a broker of this city, who has returned from a stay of several days in the camp.

Mr. Eubank is emphatic in his denial of the reports that the Florence-Goldfield mill is not a success, and that it is built upon a stope. He asserts that he made a thorough examination of both the mill and mine, and declares it is dropping forty stamps daily. He brought samples from the recent strike which breaks better than \$1000, and twenty-five feet of milling ore exposed running \$40. The specimen was ground with easy gold and the small piece assayed close to \$500 a ton.

The daily capacity is to be increased by another tube mill. The high grade is being sacked for shipment to the smelter. Mr. Eubank says the stock is being hoarded by brokers for private ends. Parker and Lockhart, he asserts, are not sincere jobbers, are not attempting to boost the price, and are neither buying or selling, but going about making a mine out of the Florence. Late mine development is satisfactory, and at least a year's milling ore is in sight, and considerable high grade broken into as development proceeds. According to Eubank, Mr. Lockhart, staked by Parker, bought a half interest in the Florence for \$5000. At the time a lease was working and after watching the production for a while they decided they wanted the controlling interest and bought an additional tenth interest for \$25,000, five times what they originally paid for a half interest, paying for the last tenth out of their royalties from the lease.

In the organization, Lockwood, Parker received \$15,000 shares each, every share of which, says Mr. Eubank, they hold today, and it cannot be bought for \$5 a share.

The Combination Fraction is shipping and expects to re-invest in the class shortly. The strike on the Consolidated is greater than at first announced, according to Mr. Eubank. There is considerable activity in the outlying districts, and a large development is on foot near the Blue Bull and the Yellow Tiger.

A rush is on to Hawthorne, a silver-lead camp near Silver Lake, and the Hillbuck lease on the Lucky Boy is shipping. Mitchell and Fairchild of Goldfield have taken a half interest in the ground, and are preparing to start active mining.

Rich Placer Strike.
A rich placer strike was made Saturday in the Wilson mine at Manhattan, Nev., according to an official received by Goldfield. The mine is owned by Goldfield. The strike is in the Wilson mine, sixty-five yards from the surface, and many locations are being filed.

The Wilson has been worked only a short time. It was opened last fall, closed during the winter, and only been reopened a few weeks, but in the past week fine lots of nuggets have been taken out.

Officials of the Goldfield Consolidated are at the mine to install mining machinery and expect to have it operating by April 15. Snow and blizzards the past few days are retarding work and delaying arrival of machinery and supplies at many of the properties. Miners from Rawhide, Tonopah and Goldfield are prospecting the placer deposits and many locations are being filed.

The Goldfield people are working a small force and expect to strike twenty yards daily when machinery is in place.

Installing Plant.
The California Gold and Copper Company has started work on an electric copper leaching plant at its mine near Von Truer, and expects to have it in operation shortly. It will cost \$35,000, the machinery to consist of an electrical engine, automatic mixers, grinders, crushers, and leaching tanks. The ore is run through the crusher into chutes passing to the grinders, then thoroughly agitated and passed through the leaching tanks. In the first a copper plating is passed to electricity as the solution passes over it and after reaching the last tank the solution is pumped back and used for the next charge.

The gold and silver are left in the slurry ready for cyaniding.

Good Oil at Silver Lake.
Good oil is being uncovered in the Blue Bucket at Silver Lake, San Bernardino county, where seven men are working, according to George P. Martin, who is in Los Angeles with a prospecting party. The oil is a red iron oxide and runs 1400 to the ton. A pay streak being four inches wide. A streak of yellow six inches wide goes to \$900, and the rich oil is being pumped out. The full width of the tunnel will assay \$10. It is his intention to sink 200 feet on the oil, which is expected to widen with depth.

DIFFICULT TO BREATHE

Relief Overnight by Latest Scientific Discovery.

In spite of the fact that the majority of asthma sufferers are inclined towards the belief that asthma is incurable, the statement is made without qualification that the only permanent cure for this distressing disease is the celebrated specific, ascatol, dispensed since its discovery, a short time ago, by the Austrian Laboratory. Chronic cases of asthma in all parts of the country have been permanently cured by this wonderful preparation, which is taken by the patient in seven-drop doses, at home, without necessitating a change of climate, which is foolishly supposed to be necessary.

The demand for ascatol in Los Angeles has caused the directors of the Laboratory to supply the Owl Drug Co. with a quantity of the preparation—a 50-cent size for mild cases, and the \$2 size, sufficient for one month's treatment, and which will cure chronic cases with a rapidity that will simply astonish the patient.

The Austrian Laboratory, 33 West 25th street, New York City, will free an experimental treatment to all those who write for it.

Shipping has started from Seventeen Mile Point, and selby buyers are daily expected in the district to take ore that is now at Silver Lake. There are said to be good shipping bodies in the mines.

Plunder Lease Strike.
George Plunder of Hart, who is working the Plunder Lease on the Big Chief, is spending a few days in the city. Mr. Plunder brought samples of ore from the rich strike made at the 300-foot level on the Ore claim that is a beautiful rock. The ore is a red iron oxide and runs 1400 to the ton. A pay streak being four inches wide. A streak of yellow six inches wide goes to \$900, and the rich oil is being pumped out. The full width of the tunnel will assay \$10. It is his intention to sink 200 feet on the oil, which is expected to widen with depth.

Indigestion Is Not Really A Disease

Merely a temporary disturbance of digestive function. Yet it occasions considerable discomfort—if neglected. Also it leads to disease. Kodol insures against indigestion and dyspepsia, by guaranteeing digestion.

It does this by duplicating Nature's digestive process, at its best. Whenever it is required to do so, it digests all food taken into the stomach. This affords the stomach complete rest. Rest and Nature can accomplish wonders with a sick stomach.

You say, "Kodol must be a pretty good medicine." Here you would be wrong—in a way; Kodol is not a medicine—merely a timely assistant to Nature, when Nature needs it.

The unthinking person would say that digestion takes place in the stomach. As a matter of fact, digestion commences the moment a piece of food is taken in the mouth. The various stages of digestion are mastication, digestion (proper), absorption and assimilation.

The digestive process as a whole is very intricate and delicate. Also, it is exceedingly important that it go forward exactly as Nature intended. Any interference with Nature's work in this connection is apt to prove disastrous. Then is when Kodol is needed. Sometimes it is itself needed.

While indigestion, as stated, is not in itself a disease, medical records show that it induces chronic dyspepsia. This is where Kodol helps. Also, many ailments even more dangerous.

Some of these ailments due to indigestion are: appetite, heart disease, cancer, and even consumption. All of these are known to result from impure, thin or impoverished blood. Here is where Kodol is needed. Poor digestion brings about

FACTS, FEATURES AND FANCIES FOR WOMEN

BY MISS SYDNEY FORD.

A group of English girls are taking a course at Bryn Mawr College, Philadelphia, and in the New York Sun, in an interview, they clear up a misunderstanding which is common among those who have supposed that "suffragettes" and the English "suffragettes" were one and the same. From the fact that they are graduates of Newnham, the college at Cambridge, and are students on suffrage, Misses Costelloe and Rendel were two of five girls who were elected to the suffrage committee in the New York Sun, and they clear up a misunderstanding which is common among those who have supposed that "suffragettes" and the English "suffragettes" were one and the same. MISS SYDNEY FORD.

The English girls are taking a course at Bryn Mawr. Miss Sydney Ford, of the New York Sun, in an article which is common among the English girls, says that she has just been making a list of the names of the English girls who are taking a course at Bryn Mawr. She says that she has just been making a list of the names of the English girls who are taking a course at Bryn Mawr. The ends are fringed. Black satin skirts are being shown, too, in all the shops. Some of them crossed by white stripes, some by brown, some by blue and some by violet.

Hints for Mothers.

One of the novel new ideas for the year-old baby is a pocket bib made of water-proof material, with an adjustable pocket, that may be snapped onto the bib when needed to act as a crumb catcher. The pocket is lined with rubber, after the manner of a soap or toothbrush case, such as travelers carry, and serves as a protection to the baby's dress.

Stocks are rather generally adopted for summer wear for both girls and boys under 8 years old. The odd Scotch plaid socks which we see in the windows of local shops are both pretty and popular. A mother suggests that a simple device for cooling the baby in to fasten at intervals on a broad band of bright ribbon the little toys of which he is most fond, and suspend the ribbon above the bed where he lies within reach of the little hands. He will entertain himself by pulling the toys out of the window of the porch, back and forth and watching them swing above him.

An ingenious mother who could not afford the luxury of a baby car solved the fresh-air problem for the little child by putting pillows in her clothes-basket and then setting the basket, baby and all, out of the window of her room on the roof of the porch, where he could "live in the open" all day long.

I was very much interested when on a railway journey not long ago to watch a pair of children whose clever mother had invented a device for amusing them. She had cut into angular pieces a bright-colored souvenir post-card, and the children were kept busy for a long time fitting the pieces together. Good rainy-day pastime, at home too.

The mother of half-a-dozen human sunbeams says that she has discovered a scheme whereby she nearly doubles the wear of her children's shoes. She melts together resin and tallow in the proportion of one-fourth resin and three-fourths tallow, and lets it boil up till it is thoroughly mixed, and after it has cooled, puts it on the soles of the shoes.

Have You an Alma Mat? One of the prominent features of this revival of the Middle Ages in fashions is the convenient little chapeau known by its old-time name of the "alma mat." It matches the frock in material, and hangs at the side from ribbons or cords. In medieval times, all the good housewives carried these alms bags at the side, and kept in them odd pennies for beggars. Margaret, the daughter of a noble, was called "Faust." A word of caution is required lest the modern lady think that an up-to-date handbag with metal or leather frame would do. Not so. It would be ridiculously out of place with a real medieval costume, and must invariably be of the same fabric as the gown with which it is worn.

Speaking of bags, I saw a beautiful one at Sandringham as a young bride she took an active interest in the rebuilding of all the old cottages into new dwellings. This work was done before Sandringham house was rebuilt, in nearly every cottage evidence of former royal visits and favors are plentiful; perhaps a tea service which the Queen has given as a gift to the present, or little gifts bestowed upon special occasions, either connected with the royal family or that of the cottager. Should there be illness in any of these homes the Queen is always ready with her sympathetic help and kindness. Many a time has she sat by the bedside of an invalid and quietly read or chatted brightly in accordance with the condition of the patient and often with her own hands has administered little delicacies which she herself has provided and generally taken with her, too.

In joy and sorrow she has been, and is, one with them all, and not only at Sandringham, but throughout the dominions.

The members of the Police Relief Association of Seattle and Spokane have presented a gold watch and fob to Representative George R. Tennant for the interest he took in securing the enactment of desired legislation at the recent session of the Legislature of Oregon.

Thomas F. Ryan, who has retired from Wall Street, after thirty years of strenuous financial activities, enjoys himself best of all at his farm at Oak Ridge, Va. He knows every animal on the farm, and they know him. He spends hours every day among them, patting them and talking to them. Next to his farm he enjoys visiting among the old friends and neighbors of his childhood, every one of whom calls him "Tom," and who are rebuffed if he didn't, and having the negroes sing old plantation melodies. The sentimental side of Mr. Ryan's nature is seen everywhere about the place. The magnificent house was built around the old one, so that the latter was entirely preserved; the little power-house which runs the electric light plant is an exact reproduction of an old blacksmith shop, in which Mr. Ryan played when a boy. The only modern addition to the place is a schoolhouse built for his employees.

SANKEY'S SON DIVORCED. NEW YORK, March 24.—Mrs. Grace L. Sankey has obtained a divorce from John E. Sankey, the eldest son of the late Ira D. Sankey, the famous evangelist. The suit was settled in the Supreme Court yesterday. Mrs. Sankey alleged misconduct on the part of her husband, but he denied the charge. The Sankeys have one child, a girl, 4 years old. Sankey was confined for some time in an asylum.

Miss Elk Koller of Fort Worth, Tex., 20 years old, pretty, an heiress, and an accomplished musician, has testified to the kindness of her heart in a rather romantic way. Last week she was married to Arthur Fuller, 30 years old, a life-long cripple with a broken back, who is unable to move his body. The romance began by her visiting Fuller and singing for him songs which he had composed. The acquaintance thus began ripened into love and their marriage. Fuller was formerly an organ player in a Chicago church, but became a hopeless cripple by a log falling upon him, breaking his spine.

The members of the San Francisco fire department have presented Mrs. Lydia Hoag Hale of that city a beautiful silver flower bowl, suitably engraved, as a testimonial of their appreciation of the work she did in behalf of the wives and children of the members of the fire department after the disaster of 1906. While the thousands of refugees crowding the streets and parks were clothed and fed by the Red Cross Relief Committee, there was a rule prohibiting the giving of clothing to the family of any man who had been killed or injured. And so the wives and children of the firemen, driven from their homes with almost nothing to wear, faced the wind and rain and cold, and suffered, with none to give them succor.

Bryan, a social favorite, who came to their relief. She turned the basement of her home into a supply store and from her friends she begged all the extra garments that could be spared. Additional clothing for the sixteen babies born to the wives of the firemen at that time was secured from shipments of clothing sent to the city, and night and day, tirelessly, making her work a labor of love. Mrs. Hale watched for the welfare of the wives and children of the firemen, and her efforts did not cease until she saw them once again in happy homes and no longer in need of her help.

Mrs. Hale regarded her work as a duty and had all but forgotten it. But the firemen had not forgotten by any means. For nearly three years they had talked and planned and debated, longing for some way to show their gratitude in a fitting form.

William Fraquaire of North Albion, Or., has presented a three-room cottage to the Rose Culture Club of that town, and J. H. Nott has also given the club a lot on which to place the house, thus enabling the club to equip a branch of the Portland Library for the benefit of the people of the town.
